VHA Selects Practice Partner to Provide Electronic Health Records Software

SEATTLE - Practice Partner, a leading provider of integrated electronic health records (EHR) and practice management software, has signed an agreement with VHA Inc. to supply VHA members with Practice Partner software.

The agreement is effective immediately and was initiated after an exhaustive review of non-acute electronic health record systems. VHA selected Practice Partner as one of its suppliers for physician office electronic health records after considering more than 60 vendors.

"We conducted a thorough review of the EHR market and found that Practice Partner was an industry leader with a proven track record," said Amy Anthony, vice president of supplier services at VHA. "There is a rapidly growing demand for EHR software and Practice Partner is well-suited to help our physician practice members."

"We are excited about the opportunity to reach VHA members," said Andrew G. Ury, M.D., CEO of Practice Partner. "Our goal is to help physician practices increase productivity and improve quality of care. We very much look forward to working with the VHA to bring these benefits to its members."

About Practice Partner

Practice Partner is a leading provider of integrated electronic health records and practice management software. Thousands of physicians in ambulatory care practices of all sizes and specialties use Practice Partner's award-winning software to increase productivity and improve quality of care.
